

A stronger bridge from acupuncture education to employment.

School-approved externship exposure + InnerVital Hospital-Based Acupuncture Readiness + post-graduation career pathways.

Designed for Chief Academic Officers, clinical education leaders, career services, and alumni directors.

WHY THIS MATTERS NOW

Federal accountability has shifted toward graduate earnings.

The U.S. Department of Education now evaluates graduate programs against the earnings of bachelor's-degree holders. Programs that fail the earnings test in 2 of 3 years can lose Direct Loan eligibility; the first test is expected in early 2027.

What InnerVital Academy adds

- 1 Externship / practicum exposure**
School-approved observation or supervised experience in clinic, community-care, and institution-ready environments where permitted.
- 2 Hospital-based practice readiness**
Documentation, red-flag screening, escalation, care-team communication, patient education, privacy, and clinic-flow discipline.
- 3 Mentorship + competency feedback**
Readiness scorecards, documentation review, case discussion, and feedback that complements the school's academic program.
- 4 Post-graduation career pathways**
Qualified licensed graduates may be considered for InnerVital clinics, community programs, institutional pilots, and approved partner opportunities as roles become available.

VALUE TO THE SCHOOL

Career-outcomes infrastructure • stronger student/alumni story • employer-aligned readiness • feedback loop to academic leadership

A school-ready pilot

- 1 ALIGN**
Define school-approved objectives, eligibility, supervision, and site rules.
- 2 TRAIN**
Add readiness modules, documentation labs, safety screening, and professional communication.
- 3 EXPOSE**
Place eligible students into approved observation / externship experiences as capacity allows.
- 4 LAUNCH**
After licensure, provide readiness review, mentorship, and role-consideration pathways where available.

No student-paid placement fees

Employment and placement are never guaranteed.

Build a school-to-practice pilot with InnerVital Academy.

innervital.com/academy/schools • **School Partnership Inquiry**

The InnerVital Academy Certificate in Hospital-Based Acupuncture Readiness is a supplemental professional-readiness credential. It does not confer licensure, NCCAOM certification, hospital privileges/credentialing, academic credit, employment, income, student-loan repayment, or scope expansion. Any externship/practicum requires school approval and compliance with applicable accreditation, supervision, insurance, and law. Federal context: U.S. Department of Education. STATE & Foreigner Accountability final rule (June 30, 2026).
